

HOW THIS CONFLICT AFFECTS YOU?

- In spite of our financial crisis, the USA is giving 3 billion every year to Israel, which is used for killing people. US taxpayers' money should be used for peace not bombs. **What could Americans do with this money?**
- The UN has issued 65 resolutions condemning the actions of Israel. The USA used its veto to protect Israel from over 40 condemnatory UN resolutions.
- January 15th 2009, Israel refused to abide by the UN resolution 1860 calling for an immediate cease-fire.
- Such actions are producing a generation who hates Israel and its supporter the USA. This will lead to more terrorism and violence against USA citizens and interests across the world. **Israel will take down the USA with it .**
- The USA has unconditionally supported Israel with no concept of morality and justice. This is the real reason "Why they hate us?".

Brief History of Palestine

Since 1948, Israel has dispossessed Palestinians of their land of 2000 years. 5 million Palestinians are now refugees in their own land.

Learn the truth here, because Israel does not allow International media into the Gaza Strip in spite of Israeli supreme court order to do so.

"Israel's current policy in the territories is a system of apartheid, with two peoples occupying the same land but completely separated from each other, with Israelis totally dominant and suppressing violence by depriving Palestinians of their basic human rights."

President Jimmy Carter

"I am also appalled by the longstanding Israeli blockade of Gaza -- a cruel act of war... There are now an estimated 700 dead Palestinians, most of whom are civilians. Many innocent children are among the dead... Such collective punishment is immoral... the US Congress should not be loudly proclaiming its support for the Israeli government's actions in Gaza."

Congressman and 2008 Presidential Candidate Ron Paul

"I find the conduct of the Israeli army in Gaza to be brutal and dishonorable, and it is insulting that they and others claim that the US military would behave in the same way... If we continue to formally condone Israel's dishonorable and brutal military conduct in Gaza, I fear there will eventually be dire consequences for our country."

JDS Retired US Marine Corps, NYT Editorial Jan 18th 2009

"Don't worry about American pressure, we, the Jewish people, control America."

Ariel Sharon, Former Prime Minister of Israel

"Israel sent a text message to all Gazans to evacuate, which other country in the world would do that?"

Senator Chuck Schumer, D-NY at 1/11/09 NYC rally

... Yes, you are right Senator, no other country would do that to people who have no food, homes or medicine, let alone cell phones!

"All this was, and is, disproportionate, indiscriminate mass violence in violation of international law... Israel is not exempt from international law and must be held accountable."

Congressman and 2008 Presidential Candidate
Dennis Kucinich on the Israeli attacks on Gaza

FACTS ABOUT ISRAEL

- In three weeks (Dec-Jan 09), Israel murdered 1200 people in Gaza, mostly women and children, and injured 5300.
- According to the United Nations, Israel bombed clearly marked UN schools with confirmed knowledge that the UN schools were packed with families. Israel has repeatedly destroyed UN relief supplies as recently as January 7th.
- Israel has directly bombed and destroyed three of the largest hospitals, including Ash-Shifa Hospital, ambulances, and fired directly at medical personnel trying to reach the injured.
- According to Human Rights Watch, Israel has used internationally banned weapons (1980 Geneva treaty) including white phosphorous, and depleted uranium against civilians.
- Israel has constantly broken the truce by continuing the siege of Gaza, and carried out frequent raids and targeted assassinations. Israel first broke the latest truce with Hamas on November 5th 2008 by assassinating 6 Palestinians inside Gaza. (AP, CNN)
- After Israel withdrew from Gaza in 2005, it carried out a complete blockade of the borders, airspace and waterways of Gaza, leading to the economic, medical and humanitarian crisis of Gaza. 80% of people in Gaza live in dire poverty (average ANNUAL income of \$625) with no food, fuel, financial aid, electricity, clean water, or medical supplies.
- Like Nelson Mandela, who was also once labeled a terrorist, the Palestinians are exercising their right to fight for freedom against this occupation with primitive home made rockets (3000 of which have led to three casualties in Israel).
- Israeli aid from American tax-payers' money and American supplied F-16 fighter jets and Apache helicopters are being used by Israel in the slaughter of civilians including women and children **MAKING US PART OF THE CRIME.**
- Any attempt to speak the truth against Israel is met with calls of "anti-Semitism".
- Israel controls the media allowing a one sided propaganda to get to the American people. By acting as a victim, labeling every opponent, group or nation as terrorists, Israel carries out genocide under the guise of fighting terrorism.

ACCORDING TO UN RESOLUTIONS 242 AND 338, ISRAEL IS THE RECOGNIZED ILLEGAL OCCUPIER OF PALESTINIAN LANDS INCLUDING GAZA AND THE WEST BANK.

"If I were an American, as I am an Englishman, while a foreign troop was landed in my country, I never would lay down my arms-never-never-never".
William Pitt, Earl of Chatham On Affairs in America

When the Palestinians DEMOCRATICALLY elected their government in 2006, Israel arrested the elected officials who remain in the Israeli prisons.
